EASE Address

Generic Modeling Software for Distributed Loudspeaker Systems

License Fees / December 2014

EASE Address is a software that allows the modeling of acoustic sources, in particular distributed loudspeaker systems, in two dimensions. It only considers the direct sound field, created by the addition of the sound contributions of the individual loudspeakers. EASE Address is free for the end user but loudspeaker companies need to license their loudspeakers in order to add them to the database. For more information, please visit <http://address.afmg.eu> and refer to the software manual.

EASE Address – License Fees

Licenses for EASE Address are sold in sets of 5 authorization files. Each set of 5 authorizations includes support for 5 different types of loudspeaker cabinets of a given manufacturer or brand. The First Set will be provided with a complimentary license of EASE SpeakerLab Basic (1 User Key). Once the manufacturer has created an .XGLL project for a new loudspeaker model, this can be sent to AFMG for compilation. The resulting GLL will be returned to the manufacturer.

Not all 5 models of a set need to be used at once. Using EASE SpeakerLab and the GLL file format, additional systems can be developed, tested and introduced at any time; already existing loudspeaker systems can be updated.

All loudspeaker models are defined in the EASE GLL format. EASE GLL data files can also be used in other AFMG software such as EASE 4.4, EASE Evac and EASE Focus. For a list of partners recommended by AFMG for loudspeaker measurement and GLL programming services, please visit the [AFMG "Partners" page](#).

License Options	License Fee
First set of 5 loudspeaker models	2,000.00 EUR
Additional sets of 5 loudspeaker models	1,500.00 EUR
Discount for multiple sets purchased at the same time	10%

Terms and Conditions

Shipping: Any software components are provided by email or by means of a download link. **Licenses:** The license fee covers the use of the EASE Address software and of EASE SpeakerLab by the licensing company. Use of the software is ongoing for the current major version of the software with no fixed termination or renewal date. There is no annual or bi-annual renewal fee. The initial license fee covers up to 6 months of free email, telephone or fax software support. **Limitations:** 1. EASE Address licenses are subject to all the normal German laws and restrictions governing the use and sale of software. Details are provided with the software or are available in advance on request. 2. EASE Address is software utilizing data files with loudspeaker data for different systems as provided by the manufacturer. AFMG accepts no responsibility for the accuracy of the data submitted. **Computer Requirements:** EASE Address is compatible with MS Windows 2000, XP, Vista, 7, and 8 operating systems on PC's with a display resolution of at least 800 x 600. Minimum requirements are a machine with 2 GB of RAM, 1.5 GHz clock speed and at least 2 GB of hard disk space. Faster systems are recommended. **Terms of Sale:** All orders are subject to our review and approval. Terms of sale are prepayment by wire transfer unless other terms are approved by AFMG. All sales are final. **Prices:** Prices effective December 15, 2014. Prices are subject to change without notice.
